NIZAM

Military Tents

Engineered to Survive

Founded in 1869.

1857-1932

Government of India placed NIZAM on its approved list of contractors for the government, railway, and ruling chief of India.

1932 – 1947

World War II

On the outbreak of World War II in the year 1939, heavy military demand compelled NIZAM to manufacture numerous tents for the military authorities which were sent to various parts of the subcontinent in conjunction with needs of the British forces and a new factory was started in 1942.

1947 – 1965

New Manufacturing Unit

After the formation of Pakistan, Nizam started a tent manufacturing unit in Karachi. The company received the first export order of tents from the Iranian Embassy, making NIZAM the first tent manufacturer in Pakistan to export tents to a foreign country.

Engineered to survive.

At H. Nizam Din & Sons, we understand that those who are at war or affected by armed conflict need immediate attention. Nizam's history and professionalism have earned quite a reputation by designing products through extensive research and development, superior craftsmanship, attention to detail, rugged construction and consistent innovation to meet the rigorous military standards and continuously looking for ways to improve the design for the warrior in the field.

With round-the-clock emergency response 365 days-a-year, we manufacture and supply tents to various armies, governments, international refugee agencies, bilateral donors and NGOs.

We operate from five offices worldwide with warehousing in five countries supplied from our facilities in Pakistan, Dubai, Bulgaria & China. This wide coverage helps us in offering rapid response delivery at competitive prices to all our clients.

1965 – 1985 Market Exploration

NIZAM procured orders from Saudi Arabia for export of military tents followed by an order for Hajj Tents in 1965. The early 80's saw consolidation of the Middle Eastern markets, development and supply of the outdoor camping products in Europe; Germany, England, Netherland & USA.

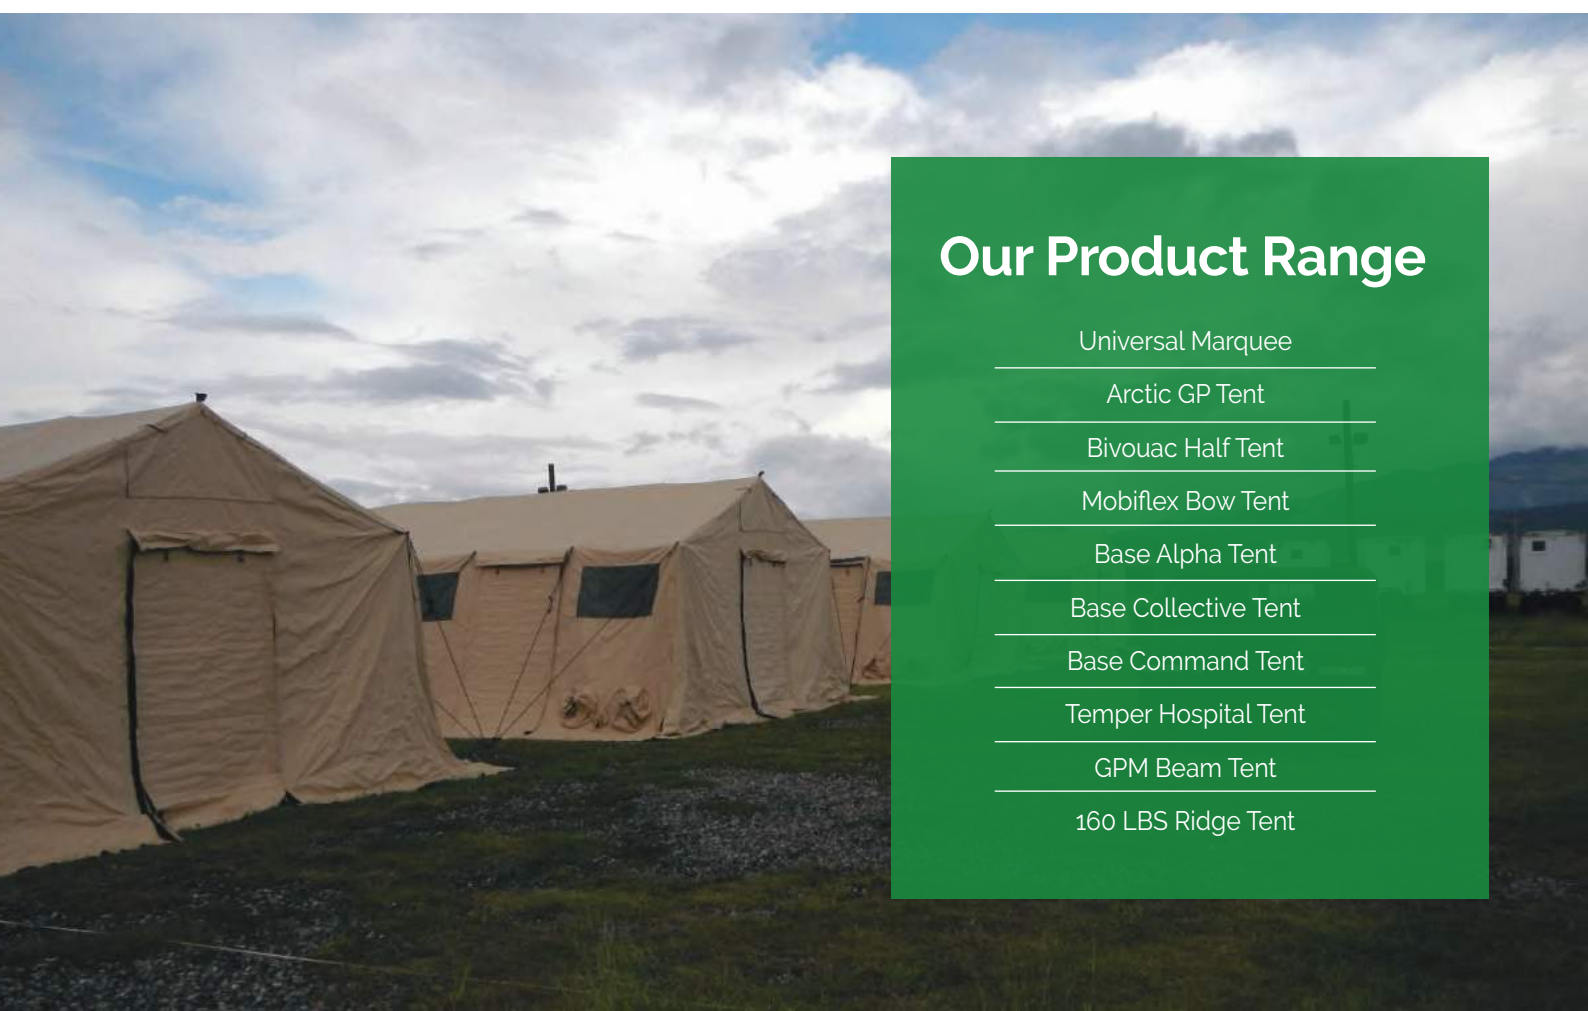

1985 – 2000 Business Expansion

NIZAM was presented with an opportunity of supplying tents to leading Aid Organizations i.e. Afghanistan Refugees which was regarded as one of the largest contract signed between an Aid Organization and a private company.

2000 – 2016 Strategic Partnership

The new Humanitarian Relief Business Division was further strengthened with partnership between NIZAM and Alpinter Relief, Belgium. The strategic partnership has been providing timely solutions to leading Aid Organizations for all their emergency humanitarian needs.
